PHILIPS
AVENT
sense and simplicity

# Highlights

## Guaranteed zero interference

DECT technology guarantees zero interference from any other transmitting product like other baby monitors, cordless phones and mobile phones. Data encryption provides a secure and private connection, so you can be sure that you are the only one that can hear your baby

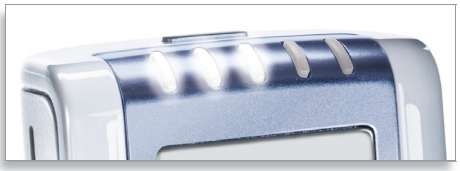
## Superior operating time

The small, rechargeable parent unit will give you the freedom of cordless roaming for up to 24 hours before re-charging is required

## Humidity and temperature sensor

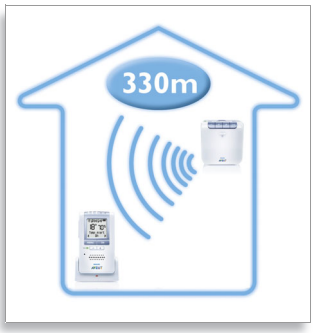
Combined humidity and temperature sensor allows you to monitor the climate in baby's room. Your baby can't regulate its body temperature as well as you can and a slight change in temperature, and too much or too little humidity can make your baby restless. A specially combined humidity and temperature sensor will immediately alert you, through the digital display on the parent unit, if the climate in your baby's room changes. Monitor the complete climate in baby's room

## LEDs light to signal noise



Lights are activated to indicate the level of sound in your baby's room. Even with the Parent Unit is muted, a vibrating sound alert will notify you when a set sound level is reached

## Extended operating range



With a range of 330 m, a belt clip and neck cord so you can be fully mobile in and around the home. A versatile travel bag will protect your baby monitor when you are away from home

## Adjustable sound sensitivity

Enables you to adjust the sound and volume levels, so you can hear every giggle, gurgle and hiccup

## Lullabies and night light

Your baby may still be restless when you first put them to bed. Help soothe and calm your baby to sleep with the warm tranquil glow of the night light which can be activated from the parent or baby unit. (Remote activation not available in US) There's nothing like a gentle lullaby to calm a restless baby. From any room in the house you can select one of 5 relaxing tunes, helping your baby to drift effortlessly to sleep in no time. (Remote activation not available in US)
